GLÜCKWUNSCH

ALLES GUTE

ZUM GEBURTSTAG

Dear Professor O.V. Besov,

the members of the seminar "Function Spaces" in Jena want to congratulate you to your ninetieth birthday. Almost all members of this seminar had profit from your remarkable work on function spaces.

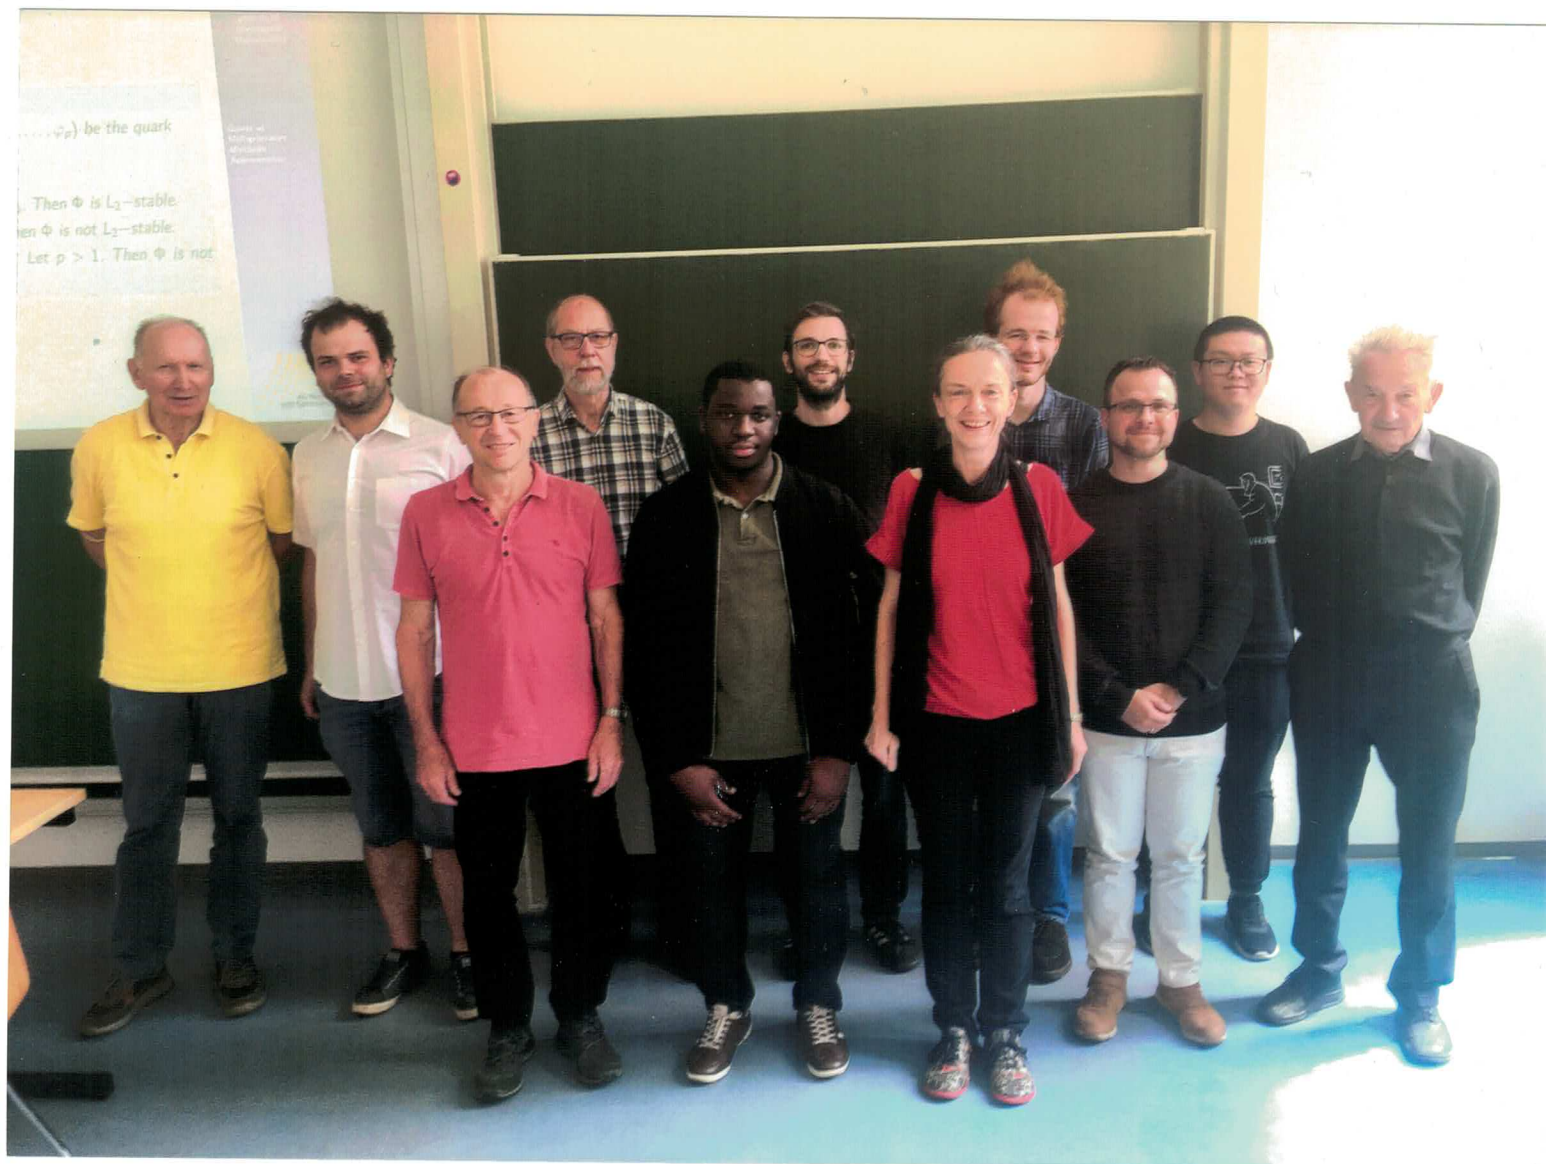

In 1992 the first meeting of the groups from Moscow and Jena took place in Friedrichroda.

Probably you remember the picture below.

It was a pleasure for us that this meeting has been repeated from time to time over the last 30 years, also thanks to your support.

We wish you all the best for the future.
