

Dear Colleagues,

we are pleased to inform you that the international conference “Quantum Integrability and Geometry,” dedicated to the 60th anniversary of two of our outstanding colleagues and wonderful friends: Leonid Chekhov and Nikita Slavnov, will be held on 1 – 4 June 2022 in Steklov Mathematical Institute of Russian Academy of Sciences, Moscow.

The conference topics include wide range of problems: from topological recursion to quantum integrability. It is also possible to participate online.

It is our pleasure to invite you to participate in this conference.

Also please, fill a short registration form:
